

**Search Tip:**

This is a large document, but you can search quickly and easily by clicking on the binocular icon on your toolbar. It will then display a search box for you to type in the name of drug you want to locate. If you do not know the correct spelling, you can start your search by entering just the first few letters of the name.

**The Complete Formulary Document includes the following sections:**

I. Alphabetical Index

II. Listing by Drug Categories (Chapters)

III. Therapeutic Interchange List
